

U.S.S.N. 09/378,261  
Filed: August 20, 1999

**CLEAN VERSION OF AMENDMENTS PURSUANT TO 37 C.F.R. § 1.121**

**Clean Version of Amended Claims  
Pursuant to 37 C.F.R. § 1.121(c)(1)(ii)**

16. (amended) A method for enhancing an inflammatory response involving blocking of protein C or activated protein C binding to an endothelial cell protein C/activated protein C receptor comprising administering to a patient in need of treatment thereof an amount of a compound blocking binding of protein C or activated protein C to the receptor by binding to the endothelial cell protein C/activated protein C receptor.

17. (amended) The method of claim 16 wherein the compound is selected from the group consisting of antibodies and fragments of antibodies to the receptor, and synthetic or natural compounds other than proteins, or peptides which inhibit binding.

24. The method of claim 16 wherein the compound is an antibody or antibody fragment immunoreactive with the receptor.

25. The method of claim 24 wherein the antibody is humanized.
26. The method of claim 16 wherein the compound is labeled.
27. The method of claim 16 wherein the compound is an oligonucleotide.
28. The method of claim 16 wherein the compound is a receptor fragment.
29. The method of claim 16 wherein the compound is combined with a

pharmaceutically acceptable carrier.
